Salt Lake City, Utah 84114-5801

Dear Sir:

Cessation order #MC-07-01-04:

All lands covered by this mine plan are entirely within a community pit operated by BLM and therefore not subject to bonding.

Cessation order #MC-07-04-02:

The Gardner Canyon Mine is within the U.S. Forest and has a reclamation surety in place:

Letter of Credit # _____, for \$40,000.00 .

Cessation order #MC-07-04-02:

The Silver Dream Mine is entirely within a wilderness study area and the BLM has not given their permission to operate on this property. Work on the property has never begun and cannot begin until the BLM signs off on the permit. Therefore bonding should not be applicable.

Cessation order #MCC-07-04-03:

Cove Travertine #2 Mine. This mine has been completely reclaimed and reseeded and a verbal request to inspect has been issued by me. The reclamation was completed, March 25, 2007.

The Reclamation on the Hi Cal Large Mine in Dog Valley has been completed and I also requested that this mine be inspected and the bond released.

Thanks
